

The background is a dark teal color with several overlapping, semi-transparent shapes in various shades of purple and blue. These shapes include circles, a diamond, and organic, leaf-like forms. Some of the shapes have a fine, dotted texture. In the center-right, there is a dark purple circle with a thin, lighter purple border. Inside this circle, the text "5:00" is written in a large, white, sans-serif font.

Meet Pam Salzer!

Introducing Pam Salzer, Senior Director, Partner Go-To-Market at Microsoft US! With over 25 years of experience in the technology sector and over 27 years at Microsoft, Pam's journey has been marked by a passion for customer collaboration and channel partnerships. Within Microsoft's Global Partner Solutions US Subsidiary, Pam focuses on driving campaigns and building pipelines with ISVs and Services Partners in Industry to leverage the Microsoft Cloud.

Pam's impact has earned her prestigious awards like the FY 2022 and FY 2021 WW Champion Award. Her Platinum and Gold Cup achievements are a testament to her innovative work with partners to drive mutual success. Colleagues praise her as a transformative leader, providing guidance and support that has influenced their successes. Pam's dedication to creating a collaborative culture of growth makes her an invaluable asset to our team and partner ecosystem. If you know Pam you also her love for her sweet, playful, and joyful pup, Pearl. We are blown away by Pam's remarkable achievements and her ongoing commitment to driving progress and modernization in the tech industry while leading with culture first!

Dear Helane,

What does the Microsoft Cloud Partner Program mean for you?

The Microsoft Cloud Partner Program is focused on simplifying partner programs, delivering greater customer value, investing in your growth in new ways, and recognizing how you deliver customer value.

The **Microsoft Cloud Partner Program Playbook** was developed to ensure we're providing simplicity and clarity. The Playbook will help you navigate the Microsoft Cloud

Social

Announcement / One Pagers (Top Corner)

Plan, build and grow your technical capabilities and accelerate sales

Partner organizations receive technical & business enabler guidance from a Microsoft **Partner Technical Consultant (PTC)** through personalized, one-to-one consultations to plan, build and publish Microsoft cloud services or applications and accelerate the closure of sales opportunities.

Plan your business with Microsoft

Get help assessing your organization's technical capabilities to uncover key opportunities that can help you grow your business.

Build a service or application

From envisioning to publishing, our consultants will advise and support you.

Technical assistance for sellers

Help to create demos and proofs of concepts and remove sales blockers to help close more sales opportunities.

Grow and support your business

Consultants are here to support you in growing and enhancing your solution, even after you've built and sold your service or application.

Get started today at <https://aka.ms/tpd>. Available to partner organizations with a Microsoft Cloud Partner Program user account and benefits associated with a Solutions Partner designation, legacy competency or Microsoft Action Pack.

What is Co-Op?

Co-op (Partner Incentives Cooperative Marketing Fund) provides reimbursements of earned funds to participating partners to help differentiate and build channel awareness and preference for Microsoft products.

Co-op Fun Facts:

- Partners enrolled in Microsoft Commerce Incentive (MCI) earn a 60% rebate / 40% Co-op split for Cloud Solution Provider (CSP).
- Co-op is earned in 6-month periods.
- Co-op can be utilized for three main activity categories: Demand Generation, Market Development, & Partner Skilling.
- Partners have 45 days after the period ends to submit a claim.

Summary of FY25 Changes

General

- “Partner Readiness” category has been renamed as “Partner Skilling”
- Demand Generation “TV/Radio Advertising” activity no longer eligible.
- Demand Generation “Print Advertising” activity applies to Surface partners only.
- “Migration Services” and “Solution Building with Third Parties” activities moved from Demand Generation to Market Development.
- “Tradeshows and expositions” activity moved from Market Development to Demand Generation.
- “Microsoft syndicated content” eligible costs have been updated from USD 18,750 to USD 12,000-17,000 per usage period.
- Added “Specialization Audit Fees” and “Sponsorship fees for Microsoft hosted events (i.e. Ignite, Build, AI Tours)” as ineligible co-op expense for clarity.
- Co-op guidance for SMB and Solution Areas have been updated to align to FY25 priorities.

FY25 Co-op Overview

What: Partner Incentives Cooperative Marketing Funds provides reimbursements of earned funds to participating partners to help differentiate and build channel awareness and preference for Microsoft products. Partners enrolled in Microsoft Commerce Incentive (MCI) earn a 60% rebate / 40% Co-op split. Co-op can be utilized for three main activity categories: Demand Generation, Market Development, & Partner Readiness. **Co-op has two six-month periods. Funds earned in one six-month period are available to use in the next six-month period.** Minimum of 10K in incentives before co-op split (100% rebate if minimum is not met).

FY25 Co-op Periods:

- Current: Earned FY24 H2 → Usage FY25 H1
- Future: Earned FY25H1 → Usage FY25 H2

Claiming Period deadlines (45 days after the period ends to submit a claim):

- FY25 H1 Usage: February 15, 2025
- FY25 H2 Usage: August 15, 2025

View your co-op funds

To view your incentive co-op funds:

1. Sign in to [Partner Center](#) and select **Incentives**.
2. Select **Co-op management** on the side of the page, and then select the appropriate incentive program from the expanded program list.

The **Co-op overview** page appears, and shows the **Co-op earned**, **Co-op claimed**, and **Remaining co-op** for your selected usage period.

The expiration date for the selected period appears below the **Remaining co-op** chart.
3. Scroll to the bottom of the page to view all claims submitted for the selected period, and program resources if applicable.

Our journey | Modernizing Microsoft Support

Copilot Features that our Support Agents love to use

Feature	Scenario
1 Case Summarization	Case Summarization highlights both the broad themes and specific actions within a case, enabling streamlined information sharing among team members, facilitating customer verification, and ensuring a comprehensive case closure.
2 Chat conversation summarization	Chat Conversation Summarization enables agents to continuously summarize chat interactions, provide customers with concise summaries for clarity, and allows for effective case closure through comprehensive summaries.
3 Answer Assist	Answer Assist offers a conversational interface that aids support engineers in effortlessly navigating the knowledge base to discover relevant information, streamlining the problem-solving process.
4 Draft Email	Draft Email enables agents to craft empathetic and professional messages, automatically correcting common errors, all while ensuring the communication is appropriately formatted for email.
5 Draft Chat Response	Draft Chat Response enables agents to swiftly respond to customers in chat format while also auto-suggesting the most appropriate next response for seamless communication.

Note: CSS user onboarding started March 2023 and completed July 2023

Agent Copilot

Summary

43,500

Agent Onboarding

Leaned in heavily on Agent Experience First

"Copilot is a **much more efficient** approach as opposed to having to manually write out steps/instructions. It also **helps reduce time** that would have been used searching through public documents/TSGs when customers have specific questions that I cannot answer off the top of my head.

Carlos | Azure Support Engineer

"I used copilot to help a customer on **the SR and got CSAT 5** 😊 [...] With the Copilot I feel like I have 10 extra pairs of eyes, and that **feeling of being "lost" or not able to help disappeared on a fly.**"

Olga | Azure Support Engineer

Important Lessons Learned during roll-out

Knowledge Management

Increase quality of existing assets, set high bar for new assets – *engage* support engineers to build/maintain

Community Strategy

Self-driven Copilot community gathers and shares feedback and best practices among Copilot users and stakeholders

Listening Systems

Rich system for collecting feedback from our support advocates on what should get built into the roadmap

Live Demo | Showcase Support Engineering Team

Key Take Aways

- 1 People need to be heard and validated – unlike AI, they have feelings
- 2 Your most vocal detractors could be your best change agents if you can win their hearts and minds
- 3 Listen to understand, versus responding in focus groups & MAKE IT FUN
- 4 Lower tenured agents saw the greatest benefit in productivity
- 5 The quality of output depends on the quality of the business-specific inputs
- 6 Copilot if both a magnifying glass and an amplifier – thoughtful deployment is key

Make it Fun – Gamification
